German Democratic Republic

USE OF BUDGET FUNDS WITHIN THE DIRECTORATE GENERAL FOR WATER TRANSPORT

utilization of budget funds within the Directorate General
for Water Transport.

on 6 September 1950 the Directorate General for Water Transport (GDS) was allocated 2,995 million Deutsche marks to expand its capacity for scrap metal salvaging. The budget plan set up by the GDS provides that 47 percent of this money be used for expanding this operation and that 53 percent of the money be used for other purposes.

50X1-HUM

The Main Waterway Office Rostock was allocated a total of 949,400 Deutsche marks. this office was diverting funds to a designing office which had no finance plan, no budget plan nor a table of organization.

50X1-HUM

by 30 June 1951 a total of 4,151 tons of scrap had been salvaged toward a goal of 39,000. Explanation proffered by officials was that the technical basis for successful plan fulfillment had been lacking.
